

**Construction of New Cliver Park Pathway Continues During the Week of October 24.** The project consists of extending a six (6) foot wide shared use asphalt path around the perimeter of Cliver Park and is part of the Township's pedestrian circulation plan. When completed, the pathway will link The Farms development to the entire park and to the recently constructed Powell Road pathway. Work will be performed Monday through Friday, between 7 am to 4 pm, weather permitting, and should last approximately two weeks. The project will not impact vehicular traffic in this area. The project is funded by a 2015 Burlington County Park Development Grant secured by Eastampton Township Council and the work is being performed by low bidder Pioneer General Contracting of South River, New Jersey.
