THEATER ARTS WORKSHOPS **SUMMER 2015**

The Eastampton Recreation Department, in partnership with Youth Stages, LLC, is sponsoring one week (half day) Theater Arts workshops this summer at Buttonwood Park. In these workshops, children will explore visual arts, music, movement and storytelling as they dramatize stories. Through creative drama, children develop expression and self-confidence by playing with language and pantomime. Each workshop will conclude with a "sharing" for family and friends. The cost of each workshop, per person, is \$125.00.

Presents

Mad Science Summer Camps

Exciting activities and spectacular demonstrations to capture the children's attention!

In each session, the children receive a take home experiment & project sheet to reinforce the topic.

Our instructors are energetic, enthusiastic, and experienced!

Mad Machines & Junior Engineers

Week of July 20th

(9:30 AM – 12:30 PM)

Whether children enjoy building structure or destroying them, they will be more than satisfied with this summer camp! Mini Mad Science engineers will design and build skyscrapers using simple tools and intricate imaginations. Campers will exercise their ability to work together in order to construct a geodesic dome big enough for all of the campers to fit inside! Children will be given the opportunity to work with pulleys, wedges, screws, and levers, which they will be using to assemble their own catapults, teaching them to understand the science behind simple machines. Children will maneuver sound-activated robots around an obstacle course, play robot soccer, and even test line-tracking robots during this weeklong camp full of (robot and children) hands-on excitement!

Cost: \$140.00 per child

Open to Children Entering Grades 1 - 6

CSI: Radical Reactions & Detective Science

Week of August 3rd

(9:30 AM – 12:30 PM)

Mad Science brings awe-inspiring experiments paired with thought-evoking detective work to campers, nurturing their scientific interests and evoking their fascination. Children will learn about chemical reactions as they grow crystals, create sidewalk chalk from scratch, and design chromatography t-shirts to take home. Campers become trained science sleuths as they investigate the role of chemistry at the scene of a crime. We spark curiosity by asking children to make thorough observations while dusting for fingerprints!

Cost: \$140.00 per child

Open to Children Entering Grades 1 - 6
